Sustainable Production + Natural Look and Feel

The future of decking

perform decking

Perform Decking is the new, smart choice for a beautiful, practical and highly durable outdoor living space.

Combining the natural appearance and texture of wood with the low maintenance durability of advanced capped composite. Perform Decking will look and feel great for decades.

Beautiful, natural appearance

Perform Decking is finished with an attractive, timber-like surface grain, in three natural colours. It even feels good under bare feet!

Easy to cut and install

You can fit versatile Perform Decking practically anywhere, with minimal waste.

Outstanding durability

Perform Decking resists fading from UV light, and it is impervious to insects and other pests.

Minimal maintenance

An occasional wipe down with a mop is all Perform Decking ever needs.

Sustainable

No hazardous materials - such as benzene or formaldehyde - are used in the Perform Decking manufacturing process.

Exceptional value

High-performance Perform Decking may cost more than traditional decking, but its exceptional durability and low maintenance guarantee fantastic long-term value.
